

Enbridge pipeline maintenance is underway in your area.

beginning
the week of
JUNE 5

Maintenance activities will take place in two locations in Homer Glen beginning the first full week of June and into late June. These include work sites near the intersection of South Golden Oak Drive and Heroes Trail and off the east end of West Mulranny Drive, with equipment access at the intersection of South Pine Grove Drive and Heroes Trail. Please watch for increased traffic.

As part of our ongoing maintenance program, crews will be working on our pipeline system in your area for a couple of weeks beginning the week of June 5.

Please watch for posted signs and use caution when driving near areas of pipeline maintenance. Our first priority is to protect communities along our pipeline route and our employees and contractors. We appreciate your patience during pipeline maintenance activities and apologize for any inconveniences.

Thank you. Your safety is important to us.
