Description of IT Support Agreement

Objectives

1. To provide a cost effective on-site technology support solution for network administration
2. To provide 24 x 7 emergency response
3. To provide remote off-site administration and troubleshooting capabilities
4. To provide guidance and recommendations with regard to technology strategic planning

Current Technologies Corporation approach to meet the above outlined objectives:

1. To provide a cost effective on-site technology support solution

The consultant reports to the client site on a routine schedule as mutually agreed. If the client requires the consultant to work more hours than established in the routine schedule, accommodations can be made.

The consultant will perform duties such as, but not necessarily limited to the following:

Provide technical support services

Perform project based work such as network infrastructure or server hardware/software upgrades/migrations

Provide support and technical specifications for upcoming projects

Create network documentation and procedural documentation

Perform in-depth systems analyses

Analyze requirements and translate them into priorities and action plans

Develop good working relationships with clients & team members

Effectively communicate technical & business concepts to personnel on all levels

Act in the capacity of a project coordinator; keeping the client informed of their current work status, coordinating with the client any downtime, and keeping the client informed of schedule and scope changes

Remain up-to-date regarding relevant technology issues and advances

2. To provide 24 x 7 emergency response

For service/support needs occurring outside of normal business hours of Monday through Friday, 8:00A.M. to 5:00P.M. and holidays, we offer emergency on-call support by calling: 630-388-0240 An on-call engineer will respond and provide remote or onsite support. The hourly rate for emergency support is 1.5 times the normal hourly rate.

3. To provide remote off-site administration and troubleshooting capabilities

Current Technologies will setup and maintain remote access to the client's network to enable routine administration and troubleshooting tasks to be performed.

4. To provide guidance and recommendations with regard to technology strategic planning

Current Technologies will upon request engage with the client on a semi annual basis (or similar schedule based upon mutual agreement) to:

Provide feedback on the current status of network, server, software, and desktop systems

Provide recommendations on improvements and/or upgrades for network, server, software and desktop systems

Perform research to determine the costs/benefits related to any upgrade

Subtotal: \$992.00
