Dear Residents of the Village of Homer Glen, the Honorable Mayor George Yukich and the Village Board of Trustees:

We are happy to provide you with the Comprehensive Annual Financial Report (CAFR) for the Village of Homer Glen. This Comprehensive Annual Financial Report covers all aspects of Village finances. This letter of transmittal is divided into four sections, each one discussing different aspects of the Village of Homer Glen's financial performance and accomplishments this past year.

Financial Reporting Award

The Government Finance Officer's Association of the United States and Canada (GFOA) awarded a "Certificate of Achievement for Excellence in Financial Reporting" to the Village of Homer Glen for its comprehensive annual financial report for the fiscal year ending April 30, 2019. This was the eighteenth consecutive year that the Village of Homer Glen has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report meets the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate award.

Introduction

Management Responsibility for Financial Information

This CAFR covers the fiscal year May 1, 2019 to April 30, 2020. The Village believes that the data, as presented, is accurate in all material respects. Responsibility for the accuracy and completeness of this data rests with the Village.

The management of the Village of Homer Glen is responsible for maintaining accurate financial records in order to ensure the efficiency and accountability of public funds. The accounts of the Village of Homer Glen are both organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in accounting for resources. The Village maintains a minimum number of funds to account for its operations. At this time, the Village utilizes only governmental funds, which include the General Fund, Motor Fuel Tax Fund, Park and Recreation Fund, Home Rule Sales Tax Fund, Capital Projects Fund and Debt Service Fund. The Village also maintains an Agency Fund to account for funds held in escrow for professional fees incurred in connection with development. A more detailed explanation of the funds utilized is available in the financial section of the CAFR report.

In order to ensure the accuracy of its financial position the Village engages an independent auditor to examine the Village's financial statements. The Village has received an unmodified opinion from the independent audit firm of Mueller & Co., LLP, verifying the accuracy of the Village's financial statements for the fiscal year.

Economic Condition and Outlook

Overview of Local Economy

The Village of Homer Glen is one of Illinois' newest municipalities. By referendum vote, the Village was incorporated on April 17, 2001. It had a population of 25,069 as of October 31, 2008 and therefore functions as a Home Rule community. The official 2010 Decennial Census figures were certified on March 3, 2011 indicating a population of 24,220. When the population dipped below 25,000, the residents needed to pass a referendum to remain a Home Rule community. In 2012, the voters approved a Home Rule referendum allowing the Village to continue as a Home Rule unit of local government. The Village covers an area of approximately 22 square miles. Homer Glen is a residential community with significant amounts of open space farmland and growing commercial areas.

To elaborate, the Village has commercial areas that generate a significant amount of sales tax revenue. The existence of sales tax revenue currently helps the Village operate without levying either municipal property taxes or utility taxes, for general operations. The Village officially adopted a Comprehensive Plan in early 2005 to help define and manage future growth.

Information Regarding Major Industries Affecting the Local Economy

There is no one significantly large employer located within the Village of Homer Glen. There are several senior care and residential facilities, educational facilities, commercial stores and governmental offices that employ a number of individuals. Sales tax receipts, from a growing commercial retail base, are one of the most important contributors to the Village organization's revenue stream.

Future Economic Outlook

The Village of Homer Glen has shown an upward trend in growth, increasing from a population of 22,269 (2000 census), to 24,083 (2004 special census), to 24,220 (2010 census), and then to the current estimated population of 24,481.

Homer Glen is located almost wholly in Homer Township and constitutes a majority of the Township's area and population. A 2004 annexation extended the Village's southeast boundary into New Lenox Township. Homer Township figures indicate a growth of 35% over the past 10 years. Other census figures for Homer Township show a significant growth in income and home values. (See Fig. 1)

Fig. 1

	Median Household Income		Median Value Owner Occupied Housing	
	1999	2010	1999	2010
Homer Township	\$79,793	\$103,603	\$217,800	\$356,000
Will County	\$62,238	\$85,488	\$154,300	\$240,500

There are approximately 5,000 acres of land in the Village of Homer Glen that are currently being farmed. For the most part, this acreage is owned by developers or investors. This provides an incredible potential for growth in the future that must be managed carefully. The Village has enacted construction and commercial development ordinances, to help preserve the Village's character, along with recent updates to the Village's zoning code. In addition, fire codes have been unified throughout the Village. Another ordinance established exterior construction standards for residential and commercial structures requiring first floor masonry. On December 18, 2007, the Village Board passed an ordinance regulating outdoor lighting to preserve the night sky as a natural resource.

Major Initiatives

Current Planning and Capital Projects

Several initiatives were successfully implemented in FY 19-20. Those initiatives are listed below.

- Completed construction of the Active Core at Heritage Park. The seven-acre Active Core includes a challenge course, a nature play area, fitness stations, a gazebo, walking paths, tennis courts, pickle ball courts, sand volleyball courts, a musical play area and sensory garden.
- Approved a project authorization with TRIA Architects for schematic design for future phases of Heritage Park including the Village Hall area, Activity Area, Sled Hill, Open Play space and Fishing Pier.

- Village became debt free by paying off the 2012 General Obligation Bond, saving \$491,000 in interest.
- Established the COVID-19 Emergency Small Business Assistance Loan Program providing interest-free loans to Homer Glen Businesses.
- Completed the Fiddymment Creek Sanitary Sewer Project which involved the construction of a new sewer line, providing service to an additional 750 acres of land.
- Coordinated with IDOT to open 159th Street to all four lanes of traffic.
- Accepted a bid from The Kenneth Company for the design, procurement and installation of playground equipment for a new park in Glenview Walk.
- Expanded Special Events with a Movie under the Stars, and the Trunk-or-Treat Halloween event.
- Expanded on Homer for the Holidays with the purchase of holiday décor from Artistic Holiday Designs.
- Approved a Contract with H.R. Green, for Design and Construction Engineering Services, for the 2020 Drainage Improvement Program in the Eagle Ridge Subdivision
- Approved a Professional Services Agreement with Sports Facilities Advisory, LLC to Conduct a Market Study Concerning Development of a Possible Sports Complex in Homer Glen in order to recommend planning and construction strategies.
- Approved an agreement with Found Design LLC (d.b.a MERJE) for branding plan services including logos for the Village, Homer Glen Business Connect, and updated signage.

Street Resurfacing Program

The Village of Homer Glen, through the Highway Department, completed a significant street resurface program during the 2019 – 2020 construction year. The annual resurfacing program covered 4.02 miles of Village’s roads this year. Portions of Village roads resurfaced with Village money in 2020 are included on the list below.

Financial Information

Internal Control Framework and Budgetary Controls

In developing and evaluating the Village's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: the safeguarding of assets against loss from unauthorized use or disposition; the reliability of financial records for preparing financial statements and maintaining accountability for assets; and the promoting of operational efficiency.

The concept of reasonable assurance recognizes that the costs of internal control should not exceed the benefits likely to be desired and that the evaluation of cost and benefits requires judgments by management. All internal control evaluations take place within the above framework. The relationship of internal control to basic management responsibilities emphasizes the relationship of the accounting system with all other management control systems. We believe that the Village's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of all financial transactions.

Budgetary control is maintained through an annual budget passed by the Village of Homer Glen's Village Board. The FY 2019-20 balanced budget is based on actual expected receipts and expenditures for the year plus any unexpended surplus from prior years. The Village may transfer budgeted amounts between departments within a fund. The budget is appropriately controlled through a computerized accounting system to assure effective fiscal management and accountability.

Financial reports, which compare actual to-date performance with the approved budget, are prepared monthly and presented to the Mayor, Village Board, Treasurer and Village Manager. In this manner, the Village is able to review the financial status of the various activities and funds on a monthly basis and determine the effectiveness of budgetary controls.

Other Information

Independent Audit

The Village of Homer Glen is required by state law to be audited annually by an independent certified public accountant. The Village Board has selected Mueller & Co., LLP for this task.

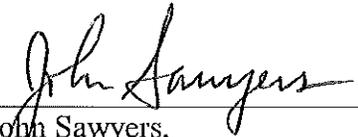

For the Fiscal Year Ending April 30, 2020, the Village has received an unmodified opinion from the independent auditor, meaning the auditor has determined that the financial statements of the Village are an accurate representation of the Village's financial position.

For additional financial highlights see the management discussion and analysis contained in the CAFR, directly behind the independent auditor's report

Acknowledgements

The preparation of the Village of Homer Glen's comprehensive annual financial report was made possible by the cooperative efforts of the Village's administrative staff. In addition, we would also like to thank our accounting firm, Mueller & Co., LLP, for their guidance to the Village through this process.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Village President and Board of Trustees
Village of Homer Glen, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Homer Glen, Illinois, as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Homer Glen, Illinois, as of April 30, 2020, and the respective changes in financial position thereof and the respective budgetary comparisons for the General Fund, Motor Fuel Tax Fund, and Park and Recreation Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of pension information on pages xiii through xxi and 37 through 41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Village of Homer Glen, Illinois. The introductory section, supplementary information, Illinois Grant Accountability and Transparency Consolidated Year-End Financial Report, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and Illinois Grant Accountability and Transparency Consolidated Year-End Financial Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and Illinois Grant Accountability and Transparency Consolidated Year-End Financial Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Report on Summarized Comparative Information

We have previously audited the April 30, 2019 financial statements of the Village of Homer Glen, Illinois, and we expressed unmodified opinions on the respective financial statements of the governmental activities, the major funds, and the aggregate remaining fund information in our report dated October 18, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended April 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 5, 2020, on our consideration of the Village of Homer Glen, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village of Homer Glen, Illinois' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village of Homer Glen, Illinois' internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

Village of Homer Glen, Illinois
Management's Discussion and Analysis (Unaudited)
April 30, 2020

As management of the Village of Homer Glen, we offer readers of the Village of Homer Glen's financial statements this narrative overview and analysis of the financial activities of the Village of Homer Glen for the fiscal year ended April 30, 2020.

Financial Highlights

- The assets and deferred outflows of resources of the Village of Homer Glen exceeded its liabilities and deferred inflows of resources per the Statement of Net Position as of April 30, 2020 by \$64,099,788 (*net position*). Of this amount, \$6,798,819 was restricted for capital projects and \$892,178 was restricted for public works.
- As of April 30, 2020, the Village of Homer Glen's Governmental Funds Balance Sheet reported a combined ending fund balance of \$17,547,744. Fund balance decreased \$4,337,876 from the prior fiscal year. The decrease in fund balance was from the early retirement of series 2012 general obligation bonds. The Village paid an additional \$5,050,000 in bond principal to retire the G.O. Bonds 3 years early.
- For the fiscal year ending April 30, 2020, the Statement of Activities increase in net position was \$2,580,670, which was \$910,914 less than the prior fiscal year. The fiscal year 2020 produced a smaller increase, which was the result of the current year increases in intergovernmental revenues and reduced investment income offset by larger increases in general governmental and public works expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Village of Homer Glen's basic financial statements. These basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Village of Homer Glen's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Village of Homer Glen's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village of Homer Glen is improving or deteriorating.

The *statement of activities* presents information showing how the Village of Homer Glen's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned, unused vacation and sick leave).

The governmental activities of the Village of Homer Glen include general government, public safety, building, public works, economic development, culture and recreation, and planning and zoning.

Village of Homer Glen, Illinois
Management's Discussion and Analysis (Unaudited)
April 30, 2020

The Village of Homer Glen has no business-type activities because sewer and water services are provided by a privately owned utility company.

The government-wide financial statements include only the activities of the Village of Homer Glen. The Village has no component units.

The government-wide financial statements can be found on pages 1-2 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Homer Glen, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village of Homer Glen can be categorized as governmental funds or fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and change in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Village of Homer Glen maintains six individual governmental funds. The governmental funds are considered to be major funds. There are no nonmajor governmental funds. Information is presented separately in the Balance Sheet - Governmental Funds and in the Statement of Revenues, Expenditures, and Change in Fund Balances - Governmental Funds. The basic governmental fund financial statements can be found on pages 3-15 of this report.

The Village of Homer Glen adopted an annual appropriated budget for each governmental fund except the Home Rule Sales Tax Fund. Budgetary comparison statements and schedules have been provided to demonstrate compliance with these budgets.

Fiduciary Fund: The Village also maintains a fiduciary fund in the form of an agency fund, which is used to account for resources - exclusively cash - held by the Village for good faith deposits required for construction within the Village. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs.

The fiduciary fund uses the accrual basis of accounting. The fiduciary fund financial statement can be found on page 16 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17-36 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, *required supplementary information* presents schedules of changes in the Village’s net pension liability and Village contributions related to the Illinois Municipal Retirement Fund. Individual fund statements and schedules are presented immediately following the required supplementary information and can be found on pages 42 - 46 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. In the case of the Village of Homer Glen, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by 64,099,788 at the close of the most recent fiscal year.

Village of Homer Glen, Illinois
Management’s Discussion and Analysis (Unaudited)
April 30, 2020

A large portion of the Village of Homer Glen’s net position reflects its investment in capital assets (e.g. land, building, infrastructure, land improvements, equipment, signage and vehicles). The Village of Homer Glen uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. The Village of Homer Glen’s investment in its capital assets, reported net of related debt, is not a spendable resource.

An additional portion of the Village’s net position (12%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$9,405,545 is unrestricted and may be used to meet the government’s ongoing obligations to its citizens and creditors.

At the end of the fiscal year, the Village is able to report positive balances in all reported categories of net position. The same situation held true for the prior fiscal year.

Governmental Activities. The Village of Homer Glen’s net position at April 30, 2020 was \$64,099,788 which was an increase of \$2,580,670 from the prior year.

Village of Homer Glen, Illinois
Management’s Discussion and Analysis (Unaudited)
April 30, 2020

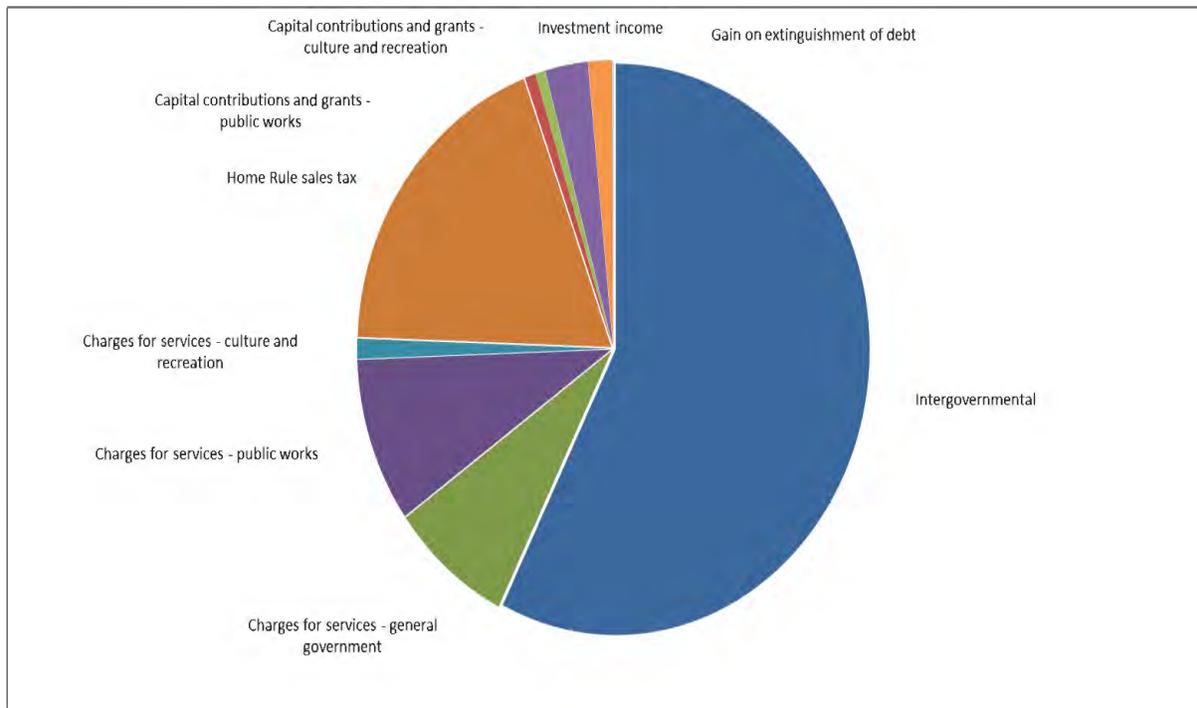

Revenues decreased by \$93,917 from the previous period. The fiscal year 2020 decrease was the result of the current year increases in intergovernmental revenues and gain on extinguished debt offset by a decline in investment income.

Public safety activities account for approximately 34 percent of the total expenses of the Village of Homer Glen. The Village subcontracts its public safety to the Will County Sheriff’s Department. The Village paid \$3,827,968 for public safety to the Will County Sheriff’s Department for the fiscal year ended April 30, 2020.

Public works activities account for approximately 27 percent of the expenses of the Village of Homer Glen. The Village has an intergovernmental agreement with the Homer Township Road District for maintenance of the streets. The maintenance cost for the year ended April 30, 2020 was \$1,348,831.

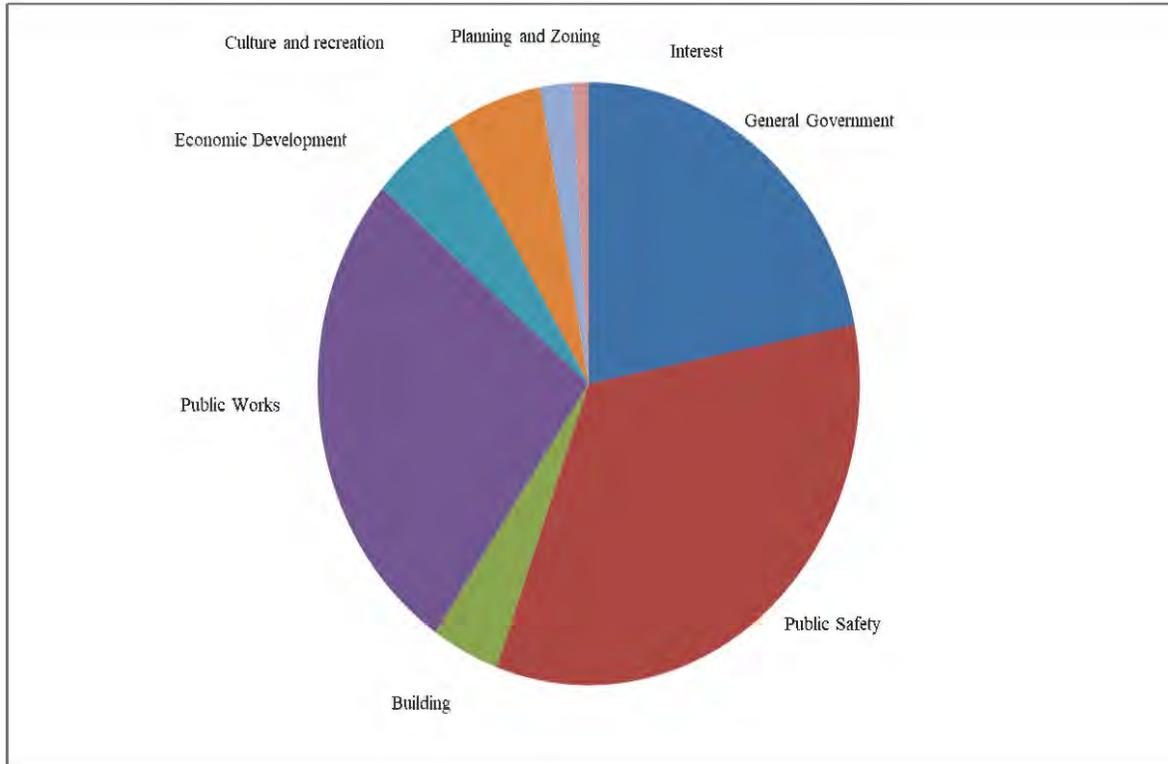

As shown by the following graphs and identified by the Statement of Activities on page 2, intergovernmental revenues not restricted or applicable to specific programs provide the major revenue source for governmental activities, while public safety and public works costs represent the majority of governmental activities expenses.

Financial Analysis of the Government's Funds

As noted earlier, the Village of Homer Glen uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Village of Homer Glen's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village of Homer Glen's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending as it represents the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the Village itself, or a group or individual that has been delegated authority to assign resources for particular purposes by the Village's Board.

As of April 30, 2020, the Village of Homer Glen's governmental funds reported combined ending fund balances of \$17,547,744, of which \$4,131,665 was unassigned, \$483,950 was committed, \$5,221,332 was assigned, \$19,800 was considered nonspendable, and \$7,690,997 was restricted. Fund balance decreased by \$4,337,876. The decrease in fund balance was from the early retirement of series 2012 general obligation bonds. The Village paid an additional \$5,050,000 in bond principal to retire the G.O. Bonds 3 years early.

Management's Discussion and Analysis (Unaudited)
April 30, 2020

The General Fund continues to produce significant surpluses. An excess of revenues over expenditures of \$749,568 was reported in the current year. \$700,000 of this surplus was transferred to the Park and Recreation Fund and \$20,000 was transferred to the Capital Projects Fund. The increase in fund balance is the result of a current year decrease in general government expenditures.

The Motor Fuel Tax fund balance at April 30, 2020 was \$892,178, all of which was restricted. Fund balance increased by \$399,248 from the previous year. The increase in fund balance is the result of the new MFT renewal fund revenue that became effective in August 2019.

The Park and Recreation fund balance at April 30, 2020 was \$3,094,597. The entire fund balance was assigned. Fund balance increased by \$595,856 from the previous year. The increase in fund balance is the result of deferring budgeted Heritage Park improvements to next fiscal year.

The Home Rules Sales Tax fund deficit at April 30, 2020 was \$(963,492). The Fund transferred funds to the Debt Service Fund at the end of the 2020 fiscal year to fund early retirement of 2012 G.O. Bonds.

The Capital Projects fund balance at April 30, 2020 was \$9,174,192, of which \$6,798,819 was restricted, \$248,638 was committed, and \$2,126,735 was assigned for future capital projects. Fund balance decreased by \$1,029,898 from the previous year. The decrease in fund balance is the result of capital expenditures for the Fiddymet Creek sewer project and the water main project. These expenditures were funded through the accumulation of prior years' fund equity.

The Debt Service Fund was closed during the year ended April 30, 2020 upon final payment of the Village's bonds payable.

General Fund Budgetary Highlights

The 2020 annual program budget for the Village of Homer Glen's General Fund identified the budgeted level of spending at \$9,347,177. Actual expenditures of \$9,008,091 (budgetary basis) were lower than budgeted expenditures by \$339,086. Actual expenditures (budgetary basis) related to general government personnel were \$54,560 lower than anticipated. Actual expenditures (budgetary basis) related to general government other expenditures were \$80,052 lower than anticipated. Actual expenditures (budgetary basis) related to public works contractual services expenditures were \$64,310 lower than anticipated. The Village historically is conservative in its budgeting approach. Expenditures are forecasted given the circumstances present at the time.

The 2020 annual program budget for the Village of Homer Glen's General Fund identified the budgeted revenues at \$9,698,929. Actual revenues of \$9,897,558 (budgetary basis) were \$198,629 more than anticipated. This was primarily due to the receipt of \$187,005 more in intergovernmental revenues than was anticipated.

Capital Assets

The Village of Homer Glen's investment in capital assets for its governmental activities as of April 30, 2020, is \$47,114,828, net of accumulated depreciation. This investment in capital assets includes land, building, vehicles, equipment, signage, and infrastructure. The majority of the infrastructure assets were received via contribution from Homer Township as a result of the Village's incorporation on April 3, 2001. The infrastructure assets consist of roads, curbs and storm sewers.

Additional information on the long-term debt can be found in note II. F. in the Notes to Financial Statements.

Economic Factors and Next Year's Budgets and Rates

- The Village continues to pursue commercial development, through its investment in economic development, to expand its tax base and secure new sales tax revenue.
- The Village projects moderate growth in sales tax and home rule sales tax resulting from new businesses opening in 2020-21.
- The Village projects an increase in use tax revenue based on the previous year's trended performance and projections from Illinois Municipal League and law changes.
- The Village continues to proactively manage expenditures to match projected revenues.

**VILLAGE OF HOMER GLEN, ILLINOIS
RECONCILIATION OF THE NET CHANGE IN FUND BALANCES
OF GOVERNMENTAL FUNDS TO THE CHANGE IN NET
POSITION OF GOVERNMENTAL ACTIVITIES
YEAR ENDED APRIL 30, 2020**

Net change in fund balances - total governmental funds \$ (4,337,876)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$1,738,890) exceeded capitalized expenditures (\$1,568,360) in the current period. (170,530)

The issuance of long-term debt (e.g., bonds, financing leases payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt uses current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The effects of these differences in the treatment of long-term debt and related items are summarized as follows:

Principal repayments	\$	6,730,000	
Amortization of issuance premium		<u>290,654</u>	
Total			7,020,654

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The decrease in the accrued interest balance results in a decrease in interest expense reported in the statement of activities. 133,208

Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This is the amount by which the accrual for these expenses at the end of the current fiscal year changed from the corresponding amount at the end of the previous fiscal year. (37,681)

Governmental funds report Village pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned is reported as pension expense. This is the amount by which pension benefits earned exceeded Village pension contributions in the current period. (27,105)

Change in net position of governmental activities \$ 2,580,670

NOTES TO BASIC FINANCIAL STATEMENTS

VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Village of Homer Glen, Illinois ("the Village") was incorporated April 3, 2001. The Village operates under the Council-Manager form of government and provides the following services as authorized by its charter: public safety (police), public works, building, culture-recreation, public improvements, and general administrative services.

These financial statements include the Village and its component units, entities for which the Village is considered to be financially accountable. At April 30, 2020, no entities were considered component units of the Village.

B. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. The Village does not engage in any business-type activities.

C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities incorporate data from the governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the Village's funds, including its fiduciary fund. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. The Village had no nonmajor funds at April 30, 2020.

The Village's governmental funds are comprised of the following:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

The Motor Fuel Tax Fund accumulates motor fuel tax allotments that are used for highways and streets throughout the Village.

The Park and Recreation Fund accumulates local fuel taxes and donations from developers to be used for parks throughout the Village.

The Home Rule Sales Tax Fund accumulates revenues from specific taxes or other earmarked sources to be used throughout the Village.

The Capital Projects Fund accounts for the acquisition or construction of major capital projects throughout the Village.

The Debt Service Fund is used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

Additionally, the Village reports the following fiduciary fund type:

The Village's agency fund, the Revolving Escrow Fund, accounts for good faith deposits required for construction within the Village.

During the course of operations, the Village has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in the fund financial statements, they are eliminated in the preparation of the government-wide financial statements.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, the transfers are eliminated in the preparation of the government-wide financial statements.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. As of April 30, 2020, the state of Illinois, as a result of its financial difficulties, was several months in arrears in remitting state income tax collections to the Village. The availability period for state income tax revenue has been extended so that twelve months of revenue are reflected in the accompanying financial statements.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Sales and other taxes, motor fuel tax allotments, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the Village.

The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

F. Budgetary Information

The Village adopts its budgets on an annual basis. The Village has adopted the budgetary system for the current and future fiscal years. The Village follows these procedures in establishing the budgetary data:

1. All departments of the Village submit requests for appropriation to the Village Treasurer who prepares the budget for submission to the Village Manager. The budget is prepared by fund, function, and activity, and includes information on current year estimates and requested appropriations for the next fiscal year.
2. The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.
3. The budget is legally enacted through passage of an ordinance. The budget for the year ended April 30, 2020 was adopted through the passage of ordinance number 19-016 on April 23, 2019.
4. The Village Treasurer is authorized to transfer budgeted amounts within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing body. The budget was amended during this fiscal year.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

5. Budgets are adopted on the cash basis of accounting for all governmental funds except the Home Rule Sales Tax Fund. The level of control (level at which expenditures may not exceed budget/appropriations) is the fund. Appropriations lapse at the end of the fiscal year.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

Cash and cash equivalents of the Village are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

The Illinois Public Funds Investment Act permits the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, obligations of states and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, The Illinois Funds, and the Illinois Metropolitan Investment Fund (IMET).

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Illinois Funds is an investment pool managed by the Illinois State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. The state of Illinois provides regulatory oversight of the Illinois Funds. The Illinois Funds is not registered with the Securities and Exchange Commission as an investment company. The Illinois Funds operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than market value. The investment in The Illinois Funds by participants is also reported at amortized cost.

IMET is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a board of trustees elected from participating members. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold.

Cash and investments of the Village are pooled into a common pooled account in order to maximize investment opportunities. Each fund whose monies are deposited into the pooled account has equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at month-end. An individual fund's equity in the pooled account is available upon demand and is considered to be a cash equivalent when preparing these financial statements. Each fund's portion of the pool is displayed on its respective balance sheet as "equity in pooled cash and investments." In addition, non-pooled cash and investments are separately held and reflected in the respective funds as "cash and investments."

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

3. Capital Assets

Capital assets (e.g., land, buildings, equipment), are reported in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost exceeding \$5,000 and an estimated useful life in excess of one year.

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at acquisition value.

Land and construction in progress are not depreciated. The other capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings	40 years
Equipment	7 years
Improvements (including infrastructure)	20-50 years
Signage	7 years
Vehicles	5 years

4. Deferred Outflows/Inflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Village has one item that qualifies for reporting in this category in the government-wide statement of net position. It is the *deferred outflows of resources related to pensions* (see Note II.H for further discussion of deferred outflows of resources related to pensions).

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The Village has one item that qualifies for reporting in this category in the government-wide statement of net position. It is the *deferred inflows of resources related to pensions* (see Note II.H for further discussion of deferred inflows of resources related to pensions).

5. Net Position Flow Assumption

Sometimes the Village will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

It is the Village's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

6. Fund Balance Flow Assumptions

Sometimes the Village will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Village's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last. Positive unassigned fund balance is only reported in the General Fund.

7. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Village itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Village's highest level of decision-making authority. The Village Council is the highest level of decision-making authority for the Village that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the Village for specific purposes but do not meet the criteria to be classified as committed. The Village Council has by resolution authorized the finance director to assign fund balance. The Village Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

8. Fund Deficit

The Home Rule Sales Tax Fund had a fund deficit of \$963,492 as of April 30, 2020. The Village plans to eliminate the deficit in the future through revenue increases and transfers from other funds.

H. Interfund Receivables and Payables

Due from/to other funds:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
Capital Projects Fund	Home Rules Sales Tax Fund	<u>\$ 1,325,691</u>

The outstanding balance between funds is comprised of amounts advanced that are scheduled to be repaid within the subsequent year.

I. Revenues and Expenses/Expenditures

1. Program Revenues

Amounts reported as *program revenues* include 1) charges to individuals or entities that purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Compensated Absences

It is the Village's policy to permit employees to accumulate earned but unused benefit days throughout the year based on their years of service. Benefit pay is accrued when incurred in the government-wide financial statements. A liability for benefit pay is reported in governmental funds only if it has matured, for example, as a result of employee resignations or retirements.

J. Comparative Data

Comparative data for the prior year have been presented in the financial statements in order to provide an understanding of the changes in the financial position and operations of the Village.

K. Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amount of assets, liabilities, and deferred outflows/inflows of resources; the disclosure of contingent assets and liabilities; and the reported revenues and expenses/expenditures. Significant estimates used in preparing the government-wide financial statements include the assumptions used to determine the net pension liability and the deferred outflows/inflows of resources related to the net pension liability. It is at least reasonably possible that the significant estimates used will change within the next year.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Deposits and Investments

The Village's cash and investments as of April 30, 2020 are summarized as follows:

	<u>Government- wide</u>	<u>Fiduciary</u>	<u>Total</u>
Cash and investments	\$ 6,366,391	\$ -	\$ 6,366,391
Equity in pooled cash and investments	<u>10,622,879</u>	<u>146,857</u>	<u>10,769,736</u>
Total	<u>\$ 16,989,270</u>	<u>\$ 146,857</u>	<u>\$ 17,136,127</u>

The Village's total cash and investments as of April 30, 2020 are comprised of the following:

Cash on hand	\$ 350
Deposits with financial institutions	377,242
The Illinois Funds	12,134,292
IMET:	
Convenience account	4,104,853
Liquidating Trust	19,800
Pooled investments	<u>499,590</u>
Total cash and investments	<u>\$ 17,136,127</u>

Deposits

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the Village's deposits might not be recovered. The Village does not have a deposit policy for custodial credit risk. As of April 30, 2020, \$71,934 of the Village's bank balances of \$572,934 was uninsured and collateralized with a letter of credit.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

Investments

As of April 30, 2020, the Village had the following investments:

<u>Type of Investment</u>	<u>Fair Value</u>	<u>Average Credit Quality/ Ratings (1)</u>	<u>Weighted Average Years to Maturity (2)</u>
Pooled investments:			
Negotiable certificates of deposit	<u>\$ 499,590</u>	Not available	1.42

(1) Ratings are provided where applicable to indicate associated *Credit Risk*.

(2) *Interest Rate Risk* is estimated using weighted average years to maturity.

Investment Policies

The Village's investments are subject to the following risks:

Concentration of credit risk is the risk of loss attributed to the magnitude of the Village's investment in a single issuer.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Village will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

The Village does not have an investment policy for the above risks.

The Village's investments held in The Illinois Funds are rated AAAM by Standard & Poor's. The Village's investments held in IMET are unrated. Investments held in the IMET Liquidating Trust have been reduced to their estimated net realizable value. As a result of IMET's legal proceedings, it is not currently known when funds will be released from the Liquidating Trust.

B. Fair Value Measurements

The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

The Village had the following recurring fair value measurements as of April 30, 2020:

Negotiable certificates of deposit - Valued by a pricing service that uses pricing models that maximize the use of observable inputs for similar securities, including basing value on yield currently available on comparable securities of issuers with similar credit ratings.

There have been no changes in valuation techniques during the year ended April 30, 2020.

The following table summarizes the investments of the Village for which fair values are determined on a recurring basis as of April 30, 2020:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Negotiable certificates of deposit	<u>\$ -</u>	<u>\$ 499,590</u>	<u>\$ -</u>	<u>\$ 499,590</u>

C. Receivables

Receivables at April 30, 2020 for intergovernmental and other revenues are deemed collectible in full.

H. Defined Benefit Pension Plan

Plan Description. The Village's defined benefit pension plan for employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Village's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

**VILLAGE OF HOMER GLEN, ILLINOIS
 NOTES TO BASIC FINANCIAL STATEMENTS
 YEAR ENDED APRIL 30, 2020**

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan. The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date). Employees of the Village who are eligible to participate in the plan participate in the Regular Plan.

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- One-half of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms. As of December 31, 2019, the following employees of the Village and were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	7
Inactive employees entitled to but not yet receiving benefits	11
Active employees	<u>24</u>
 Total	 <u>42</u>

VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020

Contributions. As set by statute, the Village's Regular Plan members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's annual contribution rates were 9.77% and 9.07% for calendar years 2020 and 2019, respectively. For the fiscal year ended April 30, 2020, the Village contributed \$150,450 to the plan. The Village also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability. The Village's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The following are the methods and assumptions used to determine the total pension liability at December 31, 2019:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%.
- Salary Increases were expected to be 3.35% to 14.25%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- For non-disabled retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Table with adjustments to match current IMRF experience.
- For disabled retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives.
- For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2019:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic equity	37 %	5.75 %
International equity	18	6.50
Fixed income	28	3.25
Real estate	7	5.20
Alternative investments	9	3.60 - 7.60
Cash equivalents	1	1.85
Total	<u>100 %</u>	

Single Discount Rate. A Single Discount Rate of 7.25% was used to measure the total pension liability as of December 31, 2019. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments to current members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

I. Tax Abatements

The Village has entered into sales tax abatement agreements with local businesses. Abatements may be granted to businesses located within or promising to relocate to the Village.

For the year ended April 30, 2020, the Village abated sales taxes totaling \$465,751 under these agreements, including the following tax abatement agreements that exceeded 10% of the total amount abated:

A 50% sales tax abatement to a supermarket chain for opening a store in the Village. The abatement amounted to \$269,619.

A 60% sales tax abatement of amounts in excess of \$100,000 to a home improvement chain for opening a store in the Village. The abatement amounted to \$174,151.

J. Operating Leases

The Village leases garage space under an operating lease agreement that expires in May, 2021. The lease agreement requires the Village to make minimum monthly rental payments. Rent expense for the year ended April 30, 2020 was \$57,360.

Future minimum lease payments required in years ending April 30 are as follows:

2021	\$	59,010
2022		<u>4,930</u>
Total	\$	<u><u>63,940</u></u>

K. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injury to employees; employee medical coverage; and natural disasters. In order to protect against such losses, the Village has purchased insurance from private insurance companies, and has joined an insurance cooperative, as discussed below. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in any of the past three fiscal years.

Southwest Agency for Health Management - The Village is a participant in the Southwest Agency for Health Management (SWAHM), which provides medical, dental, and life insurance benefits to Village employees. SWAHM is a sub-pool of the Intergovernmental Personnel Benefit Cooperative (IPBC). The member agreement provides that SWAHM will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$75,000 per occurrence. The Village contributes on a monthly basis to meet its obligations to SWAHM and IPBC. The members have a contractual obligation to fund any deficits.

**VILLAGE OF HOMER GLEN, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED APRIL 30, 2020**

One representative from each member serves on the Board of IPBC. The president of SWAHM serves as the representative to IPBC. Each member has one vote on the Board. None of the members of SWAHM or IPBC have any direct equity interest in the agencies.

L. Subsequent Events

Management has evaluated subsequent events through November 5, 2020, which is the date the financial statements were available to be issued.

M. COVID-19

In March, 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. The Village will follow all federal and state laws applicable under these circumstances. It is not anticipated that the COVID-19 pandemic will materially affect operations of the Village.

Retirement age Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience

Other information:

Notes There were no benefit changes during the year.

Note: Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses indicate that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses mean that program revenues were more than sufficient to cover expenses.

Note: Amounts reported for 2011 - 2014 have not been restated for the adoption of GASB 68.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Village. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Village of Homer Glen. This process recognizes that, when considering the government's ability to issue and repay long term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

- (1) All of the outstanding bond issues of Will County are Alternate Bonds and are expected to be paid from sources other than property taxes
- (2) Does not include Chicago Public Building Commission Bonds.
- (3) Includes debt certificates and lease certificates.
- (4) Information presented for overlapping debt is as of April 30, 2013, the most recent information available.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Honorable Village President and Board of Trustees
Village of Homer Glen, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Village of Homer Glen, Illinois, as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Village of Homer Glen, Illinois, as listed in the table of contents, and have issued our report thereon dated November 5, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Village of Homer Glen, Illinois' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Village of Homer Glen, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of Village of Homer Glen, Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village of Homer Glen, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
