How does the tech work?

flock safety

When you get Flock you get:

objective, real-time and investigative leads

- Vehicle Fingerprint™ = license plate plus
- **Indiscriminate evidence** from fixed locations
- No people, no facial recognition, no traffic enforcement

Plate
TX LGS2639

What is this tech?

- License plate recognition
- Gathers objective evidence and facts about vehicles, not people
- Alerts police of wanted vehicles
- Used to solve crime
- Adheres to all state laws

What ISN'T this tech?

- Not facial recognition
 - **Not tied to PII**
 - Not used for traffic enforcement
 - **Data not stored beyond 30 days → *automatically deletes every 30 days***
- 

How does this technology prevent and eliminate crime?

- **Proactive:** Real Time Alerts when Stolen or Wanted Vehicles enter your City
- **Investigative:** As clearance rates increase, crime rates decrease
- Flock cameras act as a **deterrent**

flock safety

Protecting Privacy

Protecting Privacy

- **Footage owned by Agency/City and will never be sold or shared by Flock**
 - 30 day data retention, then deleted
 - Short retention period ensures that all data not associated with a crime is automatically deleted & unrecoverable
 - **Takes human bias out of crime-solving by detecting objective data, and detecting events that are objectively illegal (ex. Stolen vehicles)**
- **All data is stored securely in the AWS Government Cloud, and end to end AES-256 encryption of all data**
 - **Search reason is required for audit trail**
 - NOT facial recognition software
 - NOT predictive policing
 - NO PII is contained in Flock
 - **NOT used for traffic enforcement**
 - Not connected to registration data or 3rd party databases (Carfax, DMV)
 - Transparency Portal (optional)

Transparency + Insights

Measure ROI and promote the ethical use of public safety technology

Transparency Portal

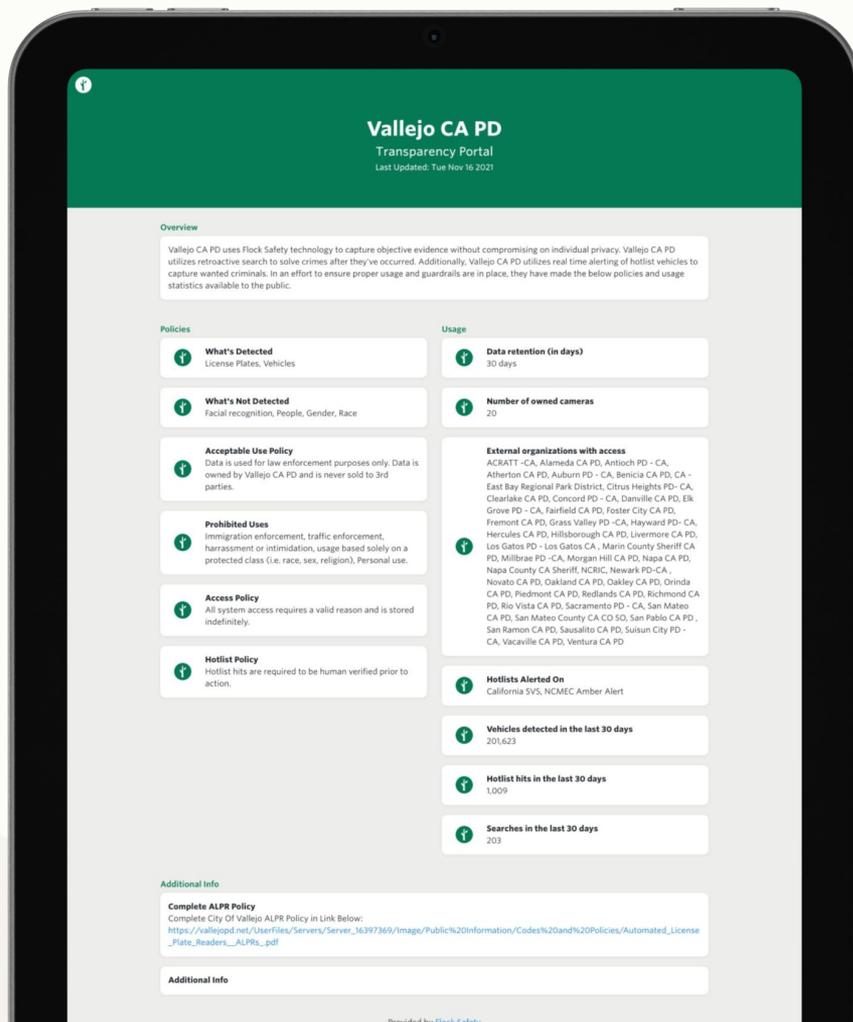

- Customizable for each agency
- Display technology policies
- Publish usage metrics
- Share downloadable Search audits

Insights Dashboard

- Measure crime patterns and ROI
- Audit Search history

Solving and preventing crime

Case Study: Car Theft Reduction

Burr Ridge PD

Burr Ridge, IL

- Unlike most of the Chicagoland area, Burr Ridge has actually seen **vehicle thefts decline** in recent years.
- Four car thefts were reported in 2021 in Burr Ridge, down from 11 the previous year. In the four years before that, annual car thefts ranged from nine to 13.
- "The offenders will steal a car somewhere, it gets reported as stolen, it hits on a license plate reader in town. When that happens, we can get to the area quick enough, hopefully, to thwart the continued thefts." - Deputy Chief Marc Loftus

Car Thefts Down In Burr Ridge: Cops

An official explains one way the police may be thwarting thefts in town.

Case Study: Shooting Case Solved

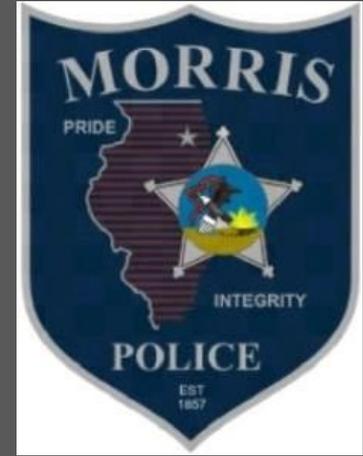

Joliet PD

Joliet, IL

- In August, 2021, a woman was killed in a shooting at an apartment building in Morris. The incident was initially reported as an active shooter investigation, and residents were told to shelter in place.
- That same day, the shooter was identified on Flock cameras and arrested in Joliet.
- City of Morris Public Information Officer Stan Knudson credited Flock Safety camera technology with helping track the vehicle the suspect was driving.
- "Great work in police work and technology coming together," Knudson said.

Case Study: Quick ROI- May 1st Install

Bloomington PD

Bloomington, IL

- Locate a suspect vehicle in a **Domestic Abduction**, which led finding the victim and the suspect at a local hotel. Suspect arrested
- Locate a suspect vehicle in an **Armed Robbery/Attempted Murder**, which led to the arrest of the suspect. In this case, the LPR system located the suspect vehicle in another jurisdiction two hours away from B/N
- Located the suspect vehicle in a **Business Burglary** on our cameras as well networked cameras in another jurisdiction
- Recovered **four stolen vehicles**
- Locate and arrest a subject in an **Aggravated DUI** complaint
- Locate three wanted subjects (**felony warrants**)
- Used in **three different suicidal subject calls**

And Much More

Case Study: *Smash & Grab Robbery*

San Bruno PD

San Bruno, CA

- January 2022 - Five suspects attempt a Smash & Grab at a Jewelry store but are chased off by the owner
- **But here's what didn't make the news...**
- Suspect vehicle identified using Flock
- SBPD thought the suspects would try again, potentially more violently
- **Vehicle placed on a custom hotlist**
- SBPD receives a real time alert that the suspects are returning
- **Officers locate the vehicle within seconds preventing another attempt**

San Bruno jewelry store owner stops attempted smash-and-grab robbery

- ABC 7 News - Bay Area

CASE STUDY *Amber Alert*

CPD

Chamblee, Georgia

Stranger on Stranger Abduction
August 28, 2020

When every second matters, Flock Safety's Machine Vision is Critical

- 12:33 PM ● Amber Alert Issued
- 1:01 PM ● Search Conducted with Flock Safety
- 2:30 PM ● Suspect Vehicle Located
- 5:03 PM ● Felony Stop + Arrest
- 6:00 PM ● Baby Reunited with Mother
